Introduction

Description

Don't you know how to make applications in your device invisible for the other people who can use your PDA when you are not nearby? Simply choose applications you want to hide with the help of PearHidelt. Improve protection of your data with this wonderful app!

Features

- Password setting for the launch
- Hides apps in ROM/RAM/SD card
- Prevention of the hidden applications remove
- **Quick search feature**
- User-friendly interface

System requirements

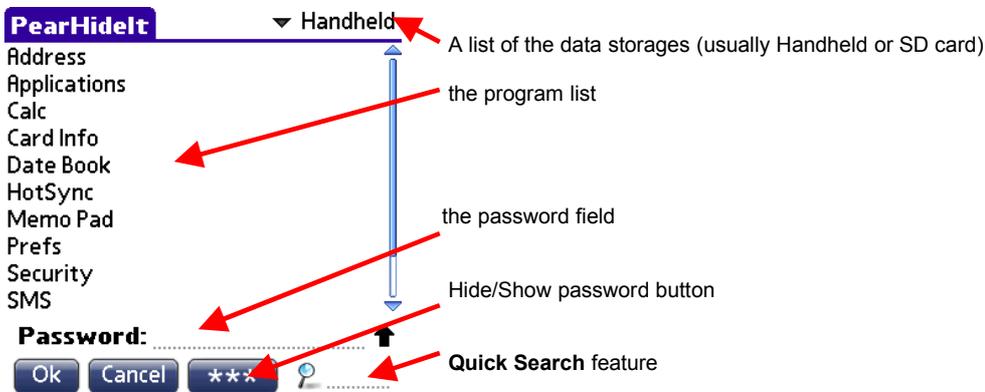

- Supports all handhelds running Palm OS 5.0 or later.
- Supports Hi-Res (320x320), Hi-Res Plus Portrait (320x480) and Landscape (480x320) mode displays.
- Supports 1/2/4/8/16-bit displays.

Installation

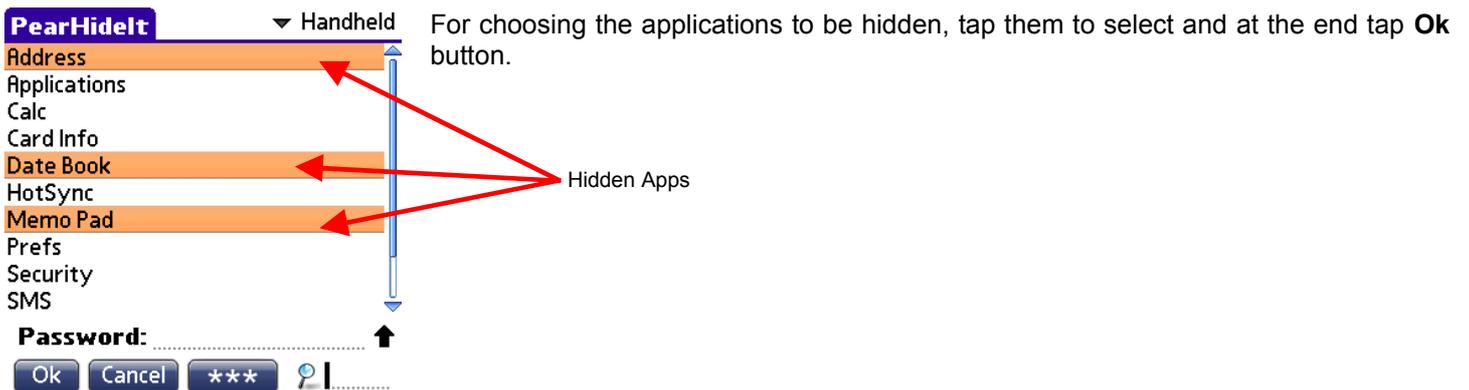

To install PearHidelt, please, synchronize "PearHidelt.prc" using your HotSync program. If you have installed the application without use of the HotSync program, then, please, make a soft reset.

Interface

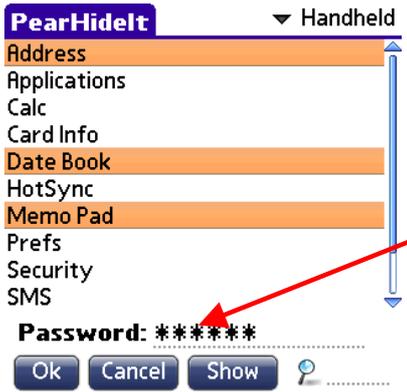

The application was created for the fast and comfortable work. So let's take a look at the main control elements.

How to select applications you want to be hidden

How to set/change password on the PearHidelt launch

The screenshot shows the PearHidelt handheld menu. At the top, there is a 'PearHidelt' header and a 'Handheld' dropdown menu. Below this, a list of applications is shown: Address, Applications, Calc, Card Info, Date Book, HotSync, Memo Pad, Prefs, Security, and SMS. At the bottom of the menu, there is a 'Password: *****' field. Below the password field are three buttons: 'Ok', 'Cancel', and 'Show'. A red arrow points from the text 'Password field' to the password field. To the right of the screenshot, there is a text box that reads: 'To set the password on the PearHidelt launch you should input it in the field Password, and then tap Ok button.'

About window

About window shows where you can buy the application. Product **Homepage** is also presented there. Tap the **Register** button to open the **Registration** window where you can enter the registration code. You'll receive the registration code after you purchase the product.

Registration window

You can purchase the application here: <http://www.pearmobile.com/>.

The screenshot shows the Register window. It has a title bar that says 'Register'. Below the title bar, there is a text field with the prompt 'Please, enter your registration code here'. Below the text field is a numeric keypad with buttons for digits 1-9, 0, and a backspace key. At the bottom of the window are two buttons: 'Register' and 'Cancel'.

Once you purchase **PearHidelt** the registration code will be e-mailed to you. After you receive it you should enter it in the **Registration** window. To open this window, you should tap 'Registration' in **System Menu**.

How to uninstall the program

To remove the program you should choose menu item **Uninstall** in the PearHidelt program menu. After that you can delete it from the handheld using the standard system means.

Note! All minor updates are free of charge for registered customers!

Free usage of **PearHidelt** is limited by 14 days.

You can purchase it here:
